Certificate ID: PIPL/INT/0221082025

**Security Clearance Certificate against WAPT for CSIR – National
Metallurgical Laboratory (NML).**

Name of the Organization: CSIR – National Metallurgical Laboratory(NML).

Audited URLs: <https://gov.indusnettechnologies.com/csirnml>

Production URLs: <https://nml.res.in>

Report Reference Number: PIPL/CNML/25-26/WAPT/0119082025

Audit Performed by: Srijib Ghosh

Issuing Date: 21st August 2025

Validity of Certificate: 30th July 2026

Testing Period:

1st Assessment: 28th July 2025 – 31st July 2025

2nd Assessment (Compliance / Verification): 17th August 2025 – 18th August 2025

Recommendations:

- The application is deemed **safe for hosting** as on the date of assessment, subject to the scan policies and testing conducted.
- All reported vulnerabilities have been fixed, and the application is free from vulnerabilities **as per CERT-In standards, OWASP Top 10 (2021), and SANS Top 25 benchmarks.**
- It is **advisable to conduct periodic audits** in the absence of content/environment changes, and **mandatory audits** in the event of any modifications to the application or hosting environment.
- The validity of this certification is restricted to the period of testing. Any future changes in application, environment, or non-adherence to required security practices may affect this compliance status.
